

FROM THE DESK OF THE PRESIDENTS  
 USMC Scout Sniper Association and Army Sniper Association

December 10, 2019

Dear Supporter,

**The Gathering of Snipers** is an annual event co-sponsored by the USMC Scout Sniper Association and the Army Sniper Association. The Gathering provides the only professional forum in the world specifically designed to further the art and science of military sniping. The multi-day event includes practical instruction, a precision rifle match and a professional educational symposium. Through this event, we hope to increase interoperability and enhance the trust and camaraderie among snipers from the various Services. We also aim to engage industry and everyday Americans in supporting the military snipers who proudly serve on their behalf.

The first-ever event of its kind was held in Denver, Colorado in August 2019 resulting in a resounding success! More than 65 military snipers from the Army, Navy, Marines, Air Force, National Guard and allied foreign nations participated. These included active duty instructors who currently work training new snipers and those who determine policy and programming at their Service level. This year, we will build on the success of our shooting clinics and add focused discussion groups and professional seminars that are sure to be of interest to shooters and leaders in the community alike.

- DATES: Thursday, 8 October 2020 through Sunday, 11 October 2020
- TIMELINE: Thursday: **The Rally Point** – Evening meet & greet reception and Check-In  
 Friday: **Professional symposium** all day with dinner during keynote address  
 Saturday: **The FFP Benefit Precision Rifle Match and The Kopfjäger Feast**  
 Sunday: **Shooting Clinics/Product Demos** all day
- LOCATIONS: Range Events: **7 Foxtrot Firearms Training Complex**, Pearsall, TX  
 Symposium: **Hotel TBD**, Riverwalk Area, San Antonio, TX

The **USMC Scout Sniper Association (SSA)** is the only non-profit membership organization for Marine Scout Snipers in the world. We exist to support the Scout Sniper community through programs that inspire brotherhood, encourage professionalism, and foster resiliency. Our community is comprised of those who have carried the long gun, those who have enabled our successes on the battlefield, and our families.

The **Army Sniper Association (ASA)** is comprised of snipers both past and present. Our organization exists to serve and support Army snipers, their families and the United States Army Sniper Course. The ASA annually supports the U.S. Army International Sniper Competition hosted by the U.S. Army Sniper School at Fort Benning Georgia.

Many shooting/defense industry partners and individual Americans stepped up to make last year's event a great success. Without such support, we couldn't hope to offer such dynamic programs that contribute to the battlefield lethality of our snipers, foster brotherhood among those who have survived their tours of duty, and support the families of those we have lost.

We hope you will show your support for our sniper community by supporting **The Gathering 2020** with a tax-deductible sponsorship as described on the next page.

Kindest regards,

Tim Parkhurst  
 President, USMC Scout Sniper Association

Art Prieto  
 President, Army Sniper Association

7 Foxtrot, the USMC Scout Sniper Association and the Army Sniper Association would like to thank you for your support of ***The Gathering of Snipers 2020 – The FFP Benefit Precision Rifle Match***. As military snipers and competitive shooters, we see your generosity firsthand. Your dedication to both the US military sniper community and the progression of the sport does not go unnoticed. We have and will continue to make every effort possible to support those who support us - the active military sniper community, the associations, and our match.

We have set out to design an entire military sniper shooting experience rather than just a precision rifle match. This match will consist of two styles of shooting. Half of the stages will be military style target engagements and the other half will be a positional/barricade heavy shooting environment. We will incorporate stationary and moving targets from the prone, alternate shooting positions, and tripod shooting at both known and unknown distances. Additionally, to challenge the shooters, there will be multiple target/rapid engagement events that will stress the shooters capabilities.

The facility is one hour from San Antonio, so come early or stay late and check out the area. The Alamo and the San Antonio Riverwalk are right there. This is a perfect opportunity to connect with fellow military snipers, precision rifle shooters and industry professionals.
